OUR PARTNERS:

ELECTRONICS RECYCLING SOLUTIONS

**–Recycling electronics
and creating local jobs for
people with disAbilities.**

Electronics Recycling Solutions is designed to provide employment for adults with autism and different disabilities through the ethical recycling of electronics.

Issues We Address

AMERICANS WITH DISABILITIES

1 in 5 Americans have a diagnosed disability; fewer than 20% are employed

1 in 59 children are diagnosed with Autism Spectrum Disorder (ASD) and each year 50,000 turn 18 years old.

ELECTRONICS WASTE

50 million tons of electronics need recycling annually, making it the largest and fastest-growing waste stream in the world.

Less than 20% of electronics waste produced in the U.S. is recycled.

PROVEN SUCCESS

ADVOCATORS

Electronics Recycling Solutions provides on-the-job training and employment for adults who are diagnosed with Autism Spectrum Disorder (ASD) and other disabilities.

INNOVATORS

Electronics Recycling Solutions' model is funded by earned income rather than government programs, reducing taxpayer burden.

Electronics Recycling Solutions' recycling model enables communities to transform local e-waste into positive environmental, social, and economic impact.

Electronics Recycling Solutions' program helps communities build a financially viable enterprise with lower cost of entry and shorter ramp-up time.

Electronics Recycling Solutions provides opportunities for local economic development, public/private partnerships, and social venture collaboratives.

New revenue is produced and retained by the city through earned income, payroll taxes, and SROI (Social Return on Investment)

EMPLOYERS

Electronics Recycling Solutions' employees enjoy permanent jobs, satisfaction of independence, and feel needed.

Dave Krikac,
VP of Adult services

Your contributions directly impact the lives of adults diagnosed with Autism Spectrum Disorder (ASD) and other disabilities.

Changing Lives, Opening Minds.

An independent study** of Blue Star Recycler workforce found our employees with autism spectrum and other disabilities:

- ▶ have a 97.43% task engagement rate
- ▶ take pride in their jobs
- ▶ have high rates of attendance
- ▶ look forward to going to work
- ▶ receive fair wages when considering their disabilities

** Findings from "An Examination of Blue Star Recyclers Workforce Efficacy" study conducted in 2012 by Dr. Larry Sargent.
